COMPANY PROFILE

WHO WE ARE:

Taurus International Trade FZC is a foreign trade company, focusing its current business since 1997 in Istanbul, Turkey. Its warehouse is located in Istanbul Industrial Free Zone Area and its headquarters are in central city. The company is founded in Ras Al Khaimah of United Arab Emirates. The management takes place in the city of Istanbul which is an important crossroad of international business with its extremely advantageous geopolitical location and is an unique gate between the west and the east.

By accumulating its valuable experience and know-how in automotive and construction equipment industry, the company is restructured to show activity in both vehicle re-export and machinery business. Since 12 years, the company has been intensively operating on international level by supplying its wide range of international customers with brand new vehicles and construction equipments.

Our roots reach to the year of 1960. At that time, the company was established to meet the local demand of the automotive and trucks spare parts sector by producing and trading the goods required within the new developing market conditions. In following 10 years, the company was intensively active in automotive sector, by holding remarkable market share at the end of the period. Furthermore, the company started to modernize corporate restructure by adding various internal departments to specialize in different areas, still led by automotive group. Afterwards, especially after 1997, the company focused on international level of trade and was restructured into its current formation.

The president and founder of the company is Mr.Ahmet SENSIVAS, born in 1942, Master of Science Mechanical Engineer, married and has 2 children.

OUR CORE BUSINESSES:

CONSTRUCTION EQUIPMENT AND SPARE PARTS

Construction has been the leading industry of the booming Turkish economy especially after 1970's. Its excessive demand on machinery attracted interest for our company and Taurus gained expertise on machinery trading in those years. After achieving a robust and strong level of international trading, Taurus decided considering to utilize this experience and know-how along with promising market opportunities. Additionally, continuous international demand on Turkish second-hand and new machinery, combined with other factors and developments, led us to strengthen our machinery division. Currently, we are holding a significant share of information network in our market of second-hand and new machinery, spare parts and other sub-levels of the business and proudly appraised this information to our esteemed customers by forming a very comprehensive website driven by an immense, updated and cutting edge database; clearly considered as the *pioneer* in Turkish market.

VEHICLE RE-EXPORT

As one of our main activities, we are trading 0-km brand new vehicles via our Free Zone Area by supplying from various sources like local distributors, several Middle East countries, Europe and selling to various other countries like Russia, Ukraine, Moldova, Georgia, Azerbaijan, Middle Asia, Africa and some European countries without nationalizing the goods. Our "re-export" business solely relies on "fast" and "reliable" business principles, based on mutual trust that has been established between us and our customers. Our reexport operations include mainly Toyota, Lexus, Honda, Suzuki, Subaru, Mitsubishi, Mazda, Mercedes and Volkswagen brands on passenger, commercial and 4x4 vehicles. We have a wide network of information regarding the vehicle export market and can effectively respond to requests.

LOGISTICS

Our company has a noticable experience on logistics services throughout Turkey and at many major ports of delivery. We'd be more than happy to assist your projects on transportation and logistics issues.

Container Logistics
